Pupils from Montguyon Highschool met Katie Campling, a journalist from the Huddersfield Daily Examiner.

Friday, April 3rd we met Katie Campling in our high school and we had the pleasure to speak with her.

Katie Campling is 27 and she is a journalist from the Huddersfield Daily Examiner .../...

.../... She is not married, she is single. She hasn't got any children. Her parents are divorced, her mother lives in Harrogate and her father lives in Drifffield. She has one step- brother and two step-sisters. She was born in Beverley in Yorkshire on the 3rd of April 1982 but she lives in Huddersfield in a flat - she really enjoys it !

Huddersfield is approximately 320 kms from London. This city has 60 000 inhabitants. Her favourite monument is Castlehill Tower - this tower is the logo of her newspaper.

She likes shopping in Huddersfield, swimming, listening to music (Jay-z and Metallica), reading, going to the pub, going to the cinema, and going out with her friends. When she came, we ate french beans and chicken. She liked it! She said « I love french cheese: camembert, roquefort, and cheddar ».

We wish she came back soon to eat cheese with us !
